

Sample scripts for calling NYS legislators regarding Jeff Dinowitz's bill (A-8378) to mandate COVID19 shots for all children

- Remember: be polite, respectful, but clear with your message. Do NOT harass, threaten, or use rude language.
- Make the script your own. This is just a *suggestion* on talking points.
- Choose ONE of the following THREE depending on which Legislator you're calling...
- Here is the link to find out WHO YOUR ASSEMBLYMAN IS:
www.nyasembly.gov/mem/search
- Attached is the list of all the NYS Assembly Members who we believe are FOR the forced COVID19 shot, or are still "undecided" about it.

OPTION #1

IF YOU ARE CALLING YOUR SPECIFIC REPRESENTATIVE:

Hi, my name is _____, and I am one of your constituents.

I'm reaching out today because I want _____ (insert name of assemblyman or senator)_____ to know that I strongly oppose the bill that Assemblyman Jeff Dinowitz has proposed. That is bill # A8378, and it would require all children in NYS to get the COVID19 shot in order to attend school.

I know this bill is still just in the Health Committee, and has not yet been proposed to the full Assembly or to the Senate, but it doesn't matter. A bill such as that should never have been proposed anywhere to begin with.

(Here you can go into your opposition to medical mandates in general, or whatever statistics you would like about the C19 shot, or a child's survival rate, or the VAERS database on injuries to-date from the shot, etc.

Or if you prefer to skip any medical discussion, that's fine too. Remember, this is not about the science. It's about getting back our rights, and putting these politicians back in their place... ie working for us)!

Please let _____ (insert name of assemblyman)_____ know that I phoned, and that I expect him/her to not only vote against this bill, but to come out publicly NOW and denounce this bill.

If he/she does not, then I will absolutely be voting for whomever runs **against** _____(insert name of assemblyman)_____ come election time.

_____ (insert name of assemblyman)_____ will **not** have my support or my vote ever again.

Thank you for your time.

OPTION #2

IF YOU ARE CALLING A LEGISLATOR THAT IS NOT YOUR SPECIFIC REPRESENTATIVE:

Hi, my name is _____, and I am a taxpayer and a voter.

(IF the person on the phone asks if you live in the legislator's district, then you can say no, but you represent a large multi-county citizen's group and some of our members DO live in your district).

I'm reaching out today because I/we want _____(insert name of assemblyman or senator)_____ to know that I/we strongly oppose the bill that Assemblyman Jeff Dinowitz has proposed. That is bill # A8378, and it would require all children in NYS to get the COVID19 shot in order to attend school.

I know this bill is still just in the Health Committee, and has not yet been proposed to the full Assembly or to the Senate, but it doesn't matter. A bill such as that should never have been proposed anywhere to begin with.

(Here you can go into your opposition to medical mandates in general, or whatever statistics you would like about the C19 shot, or a child's survival rate, or the VAERS database on injuries to-date from the shot, etc.

Or if you prefer to skip any medical discussion, that's fine too. Remember, this is not about the science. It's about getting back our rights, and putting these politicians back in their place... ie working for us)!

Please let _____(insert name of assemblyman)_____ know that I phoned, and that I/we expect him/her to not only vote against this bill, but to come out publicly NOW and denounce this bill.

If he/she does not, then I/we will absolutely actively support and work with whomever runs **against** _____(insert name of assemblyman)_____ come election time.

I will do all I can to ensure that _____(insert name of assemblyman)_____ will not have our support or our votes ever again.

Thank you for your time.

OPTION #3

IF YOU ARE CALLING A MEMBER OF THE HEALTH COMMITTEE

Hi, my name is _____, and I am a taxpayer and a voter.

(IF this legislator IS your actual representative, then say that here.

But IF it is NOT your representative, and IF the person on the phone asks if you live in the legislator's district, then you can say no, but that you represent a large multi-county citizen's group and some of our members DO live in your district).

I'm reaching out today because I know that _____(insert name of assemblyman)_____ is on the Health Committee, and I/we want _____(insert name of assemblyman)_____ to know that I/we strongly oppose the bill that Assemblyman Jeff Dinowitz has proposed. That is bill # A8378, and it would require all children in NYS to get the COVID19 shot in order to attend school.

A bill such as this should never have been proposed in the first place.

(Here you can go into your opposition to medical mandates in general, or whatever statistics you would like about the C19 shot, or a child's survival rate, or the US government's VAERS database regarding injuries to-date from the shot, etc.

Or if you prefer to skip any medical discussion, that's fine too.

Remember, this is not about the science. It's about getting back our rights, and putting these politicians back in their place... ie working for us!

Please let _____(insert name of assemblyman)_____ know that I phoned, and that I/we expect him/her to not only **vote against this bill**, but to come out publicly NOW and **denounce this bill**.

If he/she does not, then I/we will absolutely actively support their opponent, and I will work with whomever runs **against** _____(insert name of assemblyman)_____ come election time.

I will do all I can to ensure that _____(insert name of assemblyman)_____ will not have our support or our votes ever again.

Thank you for your time.
