

# PROPOSAL ONE

## Fact Sheet

### WHAT IS PROPOSAL 1?

Proposal 1 is a constitutional amendment that Democrats have placed on the statewide ballot as part of the November 5, 2024 General Election.

This would amend Section 11 of Article 1 of the New York State Constitution to include ethnicity, national origin, age, disability, or sex, including sexual orientation, gender identity, gender expression, pregnancy, pregnancy outcomes, reproductive health, and autonomy.

### THE NEGATIVE INTENTIONAL CONSEQUENCES

Proposal 1 will have wide ranging consequences that could **destroy the integrity of girls' sports, erode parental rights, extend constitutional rights to illegal aliens**, and more. If passed, Proposal 1 could:

- Prohibit organizations and educational institutions from barring males from participating in female sports.
- Allow males to use female locker rooms, restrooms, and related facilities.
- Grant minors the right to medical treatments and procedures, including gender transition drugs and/or surgeries, **without parental consent**.
- Override existing statutes limiting medical intervention to children.
- Ban schools from disclosing to parents when their child is considering or actually transitioning their gender.
- Extend constitutional protections to illegal aliens, including the right to vote, to government assistance, etc.
- Open the door for a slew of radical bills that would destroy parental oversight and involvement in their children's education and medical decisions.

**New York law already allows abortion until the end of the ninth month.** Kathy Hochul and the Democrats are attempting to define this constitutional amendment as being all about abortion, but that is a lie and easily refuted by simply reading the text of the proposed amendment.

To protect your rights, stand up for parents, and save girls' sports, **EVERY common sense New Yorker MUST vote NO on Proposal 1 on November 5th!**
